

GBOLAHAN OLUWASEYI AWOSEMO

No 1, Abdulahi Street, Ago Tailor, Odo Ona, Ibadan.

Telephone: +2349052504906 ,09164868473

E-mail: adeyemiawosemo@gmail.com

CAREER SUMMARY

Dedicated and detail-oriented Full-Stack Developer with one year of experience in designing and implementing innovative software solutions. Proficient in multiple programming languages, frameworks, and databases. Adept at collaborating with cross-functional teams to drive project success.

EDUCATION

OLABISI ONABANJO UNIVERSITY, AGO IWOYE

Ogun State

B.Sc. Physics

Feb 2020

- ✦ Member of the football team for the Department of Physics
- ✦ Sport Secretary for the Department of Physics for the 2019/2020 academic session
- ✦ Member of the research team for comparison between a pure sine wave and a modified sine wave inverter.

SQL COLLEGE OF ICT, IBADAN

Oyo State

Fullstack Developer

May, 2023 -- Till Date

- ✦ Advance knowledge on programming Language
 - ✦ Advance knowledge of using Bootstrap
 - ✦ Advance knowledge of using Javascript & Firebase
 - ✦ Advance knowledge of using React
 - ✦ Advance knowledge of using Node.js
-

TECHNICAL SKILLS

- ✦ Languages: JavaScript (Node.js, React, Angular, PHP), HTML, CSS
 - ✦ Backend: Express.js,
 - ✦ Frontend: React.js, Angular, Vue.js
 - ✦ Database: MongoDB, mySQLI
 - ✦ Version Control: Git
 - ✦ Tools: npm, ng
 - ✦ Other: RESTful APIs,
-

PROJECTS

Mayatracks {Music App}

July, 2023—Sep, 2023

- ✦ Description: Its a music web application with 100% responsiveness and user friendly,
- ✦ Role: I single handedly design and handle the functionality of the application.

- ✦ Technology: Vanilla Javascript, Firebase
- ✦ Website Link: <https://mayatracks.netlify.app/>

Maya-Weather{Weather App}

- ✦ Description: A cutting-edge, user-friendly weather application offering real-time updates, accurate forecasts, and an intuitive interface. Seamlessly integrating with global weather APIs.
- ✦ Role: Spearheaded the end-to-end development of the weather application, leveraging expertise in full-stack development.
- ✦ Technology: React JS & RESTful API.
- ✦ Website Link: <https://maya-weather.netlify.app>.

MayaYoutube Homepage Prototype

- ✦ Description: Developed a responsive YouTube homepage prototype, showcasing proficiency in code implementation, leveraging advanced features like props for enhanced functionality. Demonstrated adeptness in front-end development, ensuring a seamless user experience and aligning with industry best practices.
- ✦ Role: Single-handedly conceived, designed, and developed a responsive YouTube homepage, showcasing expertise in end-to-end development.
- ✦ Technology: React js.
- ✦ Website Link: <https://mayayoutube.netlify.app>

MayaChatify - Chat Application Prototype

- ✦ Description: Designed and developed a responsive chat application prototype using React and Node.js, with MongoDB as the backend. Demonstrated proficiency in code implementation, incorporating advanced features to enhance user interaction and experience. Adhered to industry best practices to ensure seamless functionality across devices.
- ✦ Role: Solely conceptualized, designed, and implemented the Chatify prototype, showcasing expertise in end-to-end development of chat applications.
- ✦ Technology: React.js, Node.js, MongoDB
- ✦ Website Link: work in progress but available on my github page ..
- ✦ Github Link: <https://github.com/Oluwamaya/linkdenFrontend.git>

And Lot more project working On.

CERTIFICATION

Certificate of completing the software development track short course	2023
National youth service corps.	2022
Certificate of membership of institutional cadet corps of Nigeria	2020

HOBBIES AND INTEREST

☐ Coding ☐ Surfing internet ☐ Football
